Contents

Marine Chemistry, Vol. 24 (1988)

Research Papers

Role of uranium(V) in marine sedimentary environments: a geochemical possibility
G. Kniewald and M. Branica (Zagreb, Yugoslavia) 1

An intercalibration exercise for trace metals in marine sediments
D.H. Loring and R.T.T. Rantala (Dartmouth, N.S., Canada) 13

Characterization of sedimentary humic acids fractionated by hydrophobic interaction chromatography
E. Kalinoswski and R. Blondeau (Villeneuve d'Ascq, France) 29

Leakage of deep, reservoired petroleum to the near surface on the Gulf of Mexico continental slope
M.C. Kennicutt II, J.M. Brooks and G.J. Denoux (College Station, TX, U.S.A.) 39

Iodine cycling in the Sargasso Sea and the Bermuda inshore waters
T.D. Jickells (Norfolk, Gt. Britain), S.S. Boyd and A.H. Knap (Ferry Reach, Bermuda) 61

Red Sea geochemical budgets and exchanges with the Indian Ocean
J.P. Bethoux (Villefranche Sur Mer, France) 83

Short Note

Origin of iron–manganese-rich suspended matter in the Landsort Deep, NW Baltic Sea
K. Boström, J. Ingri (Stockholm, Sweden) and C. Pontér (Luleå, Sweden) 93

Announcement 99

Research Papers

A high-temperature catalytic oxidation method for the determination of non-volatile dissolved organic carbon in seawater by direct injection of a liquid sample
Y. Sugimura and Y. Suzuki (Ibaraki, Japan) 105

Dimethyl sulfide production during natural phytoplanktonic blooms
B.C. Nguyen, S. Belviso, N. Mihalopoulos (Gif-sur-Yvette, France), J. Gostan and P. Nival (Villefranche-sur-Mer, France) 133

Sulfide complexation in surface seawater
D. Dyrssen (Goteborg, Sweden) 143

High precision measurements of alkalinity and total carbon dioxide in seawater by potentiometric titration. 2. Measurements on standard solution
A.L. Bradshaw and P.G. Brewer (Woods Hole, MA) 155

Depositional history of recent sediments from San Pedro Shelf, California: reconstruction using elemental abundance, isotopic composition and molecular markers.
R.P. Eganhouse (Boston, MA) and I.R. Kaplan (Los Angeles, CA) 163

On the hydrocarbon composition of Caribbean sponges. A preliminary study
N.M. Carballeira, V. Negrón, B. Porras and B.A. Diaz (Rio Piedras, Puerto Rico) 193

Short Note

Comments on azide and mercuric salts as seawater preservatives, and alkenes in the Gulf of Mexico
G.R. Harvey (Miami, FL) 199

Research Papers

Linear free energy techniques for estimation of metal sulfide complexation constants
S. Elliott (Irvine, CA, U.S.A.) 203

Covariation of reactive solutes in the sea
K.A. Fanning, G.A. Vargo, L. Bell-Torres and R.W. Young (St. Petersburg, FL, U.S.A.) 215

A high sensitivity method for the determination of nanomolar concentrations of nitrate and nitrite in seawater with a Technicon AutoAnalyzer II
C. Oudot and Y. Montel (Dakar, Senegal) 239

The effects of temperature, salinity and seagrass species on the uptake of lead(II) from seawater by excised leaves
A.M. Bond, V. Reust, H.A. Hudson, K.R. Arnup, P.J. Hanna and S. Strother (Vic., Austalia) 253

The solid state speciation of copper in surface water particulates and oceanic sediments
R. Chester, A. Thomas, F.J. Lin, A.S. Basaham and G. Jacinto (Liverpool, Gt. Britain) 261

Trace metal transport in a tropical estuary
H. Windom, R. Smith, Jr., C. Rawlinson (Savannah, GA, U.S.A.), M. Hungspreugs, S. Dharmvanij and G. Wattayakorn (Bangkok, Thailand) 293

Profiles of dissolved and acid-leachable selenium in a sediment core from the lower St. Lawrence Estuary
K. Takayanagi (Mont-Joli, Qué., Canada) and N. Belzile (Rimouski, Qué., Canada) 307

Iodine speciation in Chesapeake Bay waters
G.W. Luther, III and H. Cole (Lewes, DE, U.S.A.) 315

Mass balance of heavy metals in the Seto Inland Sea, Japan
A. Hoskika, T. Shiozawa (Hiroshima, Japan) and Y. Kitano (Aichi, Japan) 327

Short Note

Alkalinity in seawater and estuarine water — some limitations in the two-point method
M. Wedborg (Göteborg, Sweden) 337

Contents of Vol. 24 345
